- 2. OVERVIEW OF THE IMPLEMENTATION OF THE OPERATIONAL PROGRAMME (ARTICLE 50(2) AND 111(3)(A) OF REGULATION (EU) NO 1303/2013)
- 2.1. Key information on the implementation of the operational programme for the year concerned, including on financial instruments, with relation to the financial and indicator data.

Programme Monitoring Committee

Due to the pandemic, Spring Programme Monitoring Committee (PMC) was conducted via written procedure on 6th May 2022. The Autumn PMC meeting held on the 22nd November 2022 was a physical in person meeting. A Summary template of evaluations completed to date in the programme was provided as a separate paper and approved by PMC members. Members also confirmed that they were content with the completed 2022 Communication activities and that these activities could also form the basis of the 2023 Communication plan, with no planned changes in the final year of the programme. Papers relating to the meetings have been uploaded to the EC Database (SFC2014).

Programme Database

The Database User Group, which oversees the ongoing operation of Northern Ireland's European Structural and Investment Funds (ESIF) database, and consists of representatives of the ERDF, ESF and RDP programmes, has continued to monitor the system and ensure its effective functioning in line with programme requirements.

Communication and Publicity

The Managing Authority continues to use the Programme website (http://www.jobsandgrowthni.gov.uk) as the main communication tool for guidance, case studies and news. Information and publicity on Programme activity is also distributed through DfE social media platforms this has proved an effective and wide-reaching form of communication. Over 100 tweets relating to the ERDF programme have been issued from DfE Press Office twitter account @Economy_NI up to the end of March 2023.

2022 Major Event

NI Chamber of Commerce 'Festival of Business' returned this year to St George's Market in Belfast. The Managing Authority, in conjunction with Invest NI took a stand on Wednesday 14 September 2022. The event, which is the largest of its kind in Northern Ireland saw more than 700 businesspeople

gather in the famous marketplace to network and learn from a huge variety of speakers and exhibitors in a single morning. With well as over 100 exhibitors, the Festival was a true celebration of the diversity, energy, and innovation of NI businesses. It was the ideal opportunity to enjoy networking in a lively, interactive environment, and was the perfect place to showcase the achievements of the ERDF programme to date with a really engaged, in-person audience. So much so that we had significant interest from a vast range of companies all interested in the ERDF stand which was extremely busy throughout the event.

Expenditure[1]

Payment Applications

Three payment applications were submitted to the EC during the course of 2022. A total of £23,602,460 ERDF was included in those applications and this translated to £27,638,076.

N+3 Targets

The 2022 cumulative N+3 spend target of \in 189,326,622 had already been met through the payment applications submitted by the end of 2021. With the \in 27,638,076 achieved in 2022, and annual accounts deductions amounting to \in 52,470, the cumulative total achieved to 31 December 2022 is \in 241,0047,588. The programme remains on track to spend the remainder of its \in 313,254,888 allocation ahead of programme closure. The N+3 position is summarised in the table below:

Cumulative ERDF Spend Required for 2022 N+3 Target - €189,326,622

Cumulative ERDF Spend Achieved by 31 Dec 2022 - €241,004,588

Performance

The Programme aims to increase economic growth in Northern Ireland and a number of macroeconomic (NI level) performance targets have been included in the Programme. Whilst ERDF funding is not solely responsible for these results, the activity supported makes a positive contribution. Macro targets are showing a mostly positive trend:

• NI Business Expenditure on Research and Development (BERD) figure as a percentage of

GVA has increased from 1.5% in 2020 to 1.7% in 2021. The methodology being used in NI has been updated however the figures being reported are in line with the original methodology so that a meaningful comparison can be made with the 2014 baseline figure. The Office of National Statistics (ONS) GVA information from which the data is collated is produced a year in arrears, (The 2020 data was collected in 2021). The 2022 position will not be available until later in the 2023 year, it has been delayed from the usual December release date. The output for 2022 therefore has been calculated using the 2021 per GVA figure.

- Companies engaged in R&D for the first time has increased from a baseline of 495 in 2012 to 1,058 in 2022; this has already exceeded the 2023 target value of 700.
- Unsurprisingly, the number of SME high growth companies decreased following the COVID pandemic but has since rebounded to previously similar levels. The number of Small and Medium Sized Enterprise (SME) high growth companies has increased from a baseline of 695 in 2013 to 900 in 2022.
- Employment within micro and small businesses; 2022 Employment is up by 12.1% compared to the base year and currently meets the target.

Note: The euro figures achieved that are quoted in this section of the report are actual values arising from the application of the various exchange rates relating to each payment application to date.

[1] Unless otherwise explicitly stated, <u>references to any total in the AIR should equal 60% ERDF</u> and 40% match.

3. IMPLEMENTATION OF THE PRIORITY AXIS (ARTICLE 50(2) OF REGULATION (EU) NO 1303/2013)

3.1. Overview of the implementation

ID	Priority axis	Key information on the implementation of the priority axis with reference to key developments, significant problems and
		steps taken to address these problems
1	Strengthening Research, Technical Development and Innovation	Invest NI (INI) had made offers of grant to 362 projects. GRD encourages more NI companies to grow competitively by increasing their research, development & technical innovation activities. The support has resulted in 104 companies engaging in R&D for the first time. The R&D support have allowed 218 companies to undertake new R&D activity & 208 companies explore new markets. The overall scheme indicates a positive value for money with the return on investment estimated to be £4 of GVA for every £1 invested. The collaborative projects are also adding value by generating benefits including in relation to enhanced networks, knowledge sharing, & supporting on-going R&D activities and relationships. The budget profile is forecasting that although challenging the full re-allocation amount to Grant for R&D will be drawdown within the Programme period
		The 'Design for Business' Programme offers various strands to help companies address their design issues 1,234 (unique) enterprises have benefitted from the scheme a total of 1,919 times
		Design Advice:up to half a day independent design advice from an expert for INI customers only. 550 enterprises (unique) have participated
		Design Clinics:1hr design advice appointment. Clinics were held in INI's regional office network one day per month & open to everyone Clinics ceased in Aug 2015 69 enterprises (unique) having attended
		Regional Awareness Design Events/ Bites:Workshops held across NI regions covering specific design topics 543 enterprises (unique) have attended
		Design Active/Forward:4 month programme to help businesses explore where & how design can deliver tangible outputs 57 unique enterprises participated
		The Design Service contract has now completed under ERDF.
2	Enhancing the Competitiveness of SMEs	Priority 2 includes Financial Instruments (FIs) Local Economic Development (LED) & Selective Financial Assistance (SFA).
		The INI Co-Fund I scheme was a 6-year programme and has significantly outperformed original targets. Since the start of the IGJ Programme a total of 59 investment agreements have been completed.

ID	Priority axis	Key information on the implementation of the priority axis with reference to key developments, significant problems and
		steps taken to address these problems
		Co Fund II, has a total of 82 investments supported via ERDF. The 3 Techstart funds have made 149 investments which included 32 through the 2 University Funds. Techstart II Fund is providing support to NI based entrepreneurs, seed/early stage SMEs & university spin-outs with 22 companies supported to-date. Development Fund "Crescent" has secured 44 investments & "Kernel" has secured 40 investments. Growth Loan Fund II has secured 23 investments to support export-focused NI SMEs demonstrating growth or strong growth potential. A number of the Funds had been impacted by Covid with delays on SME's making investment decisions & also the availability of other government support during this period. INI are starting to see an increase again in activity within the market & are profiling that the revised allocation will be fully spent
		LED:41 individual offers of support have been approved This includes at least 1 project for each of the 11 Councils across NI The projects are aimed at starting & growing businesses (particular focus on small enterprises) INI has also approved a Council collaborative project focused on helping businesses impacted by Covid19 through digital transformation along with the continued support of the NI Start A Business Programme Over 279 quality referrals from Councils have been received
		SFA: 174 SFA offers of of capital support have been made to SMEs. Covering a wide range of sectors.
3	Supporting the Shift Towards a Low Carbon Economy in all Sectors	Low Carbon - Belfast Rapid Transit - The Department for Infrastructure (DfI) projects associated with the Belfast Rapid
		For the Energy Efficiency in Social Housing Project which has been assigned to Department for Communities (DfC). Up until 31st December 2022, work has been completed on 834 properties whilst significant progress had been made since last year when only 149 properties were completed it is still much lower than had been anticipated at this stage. A number of issues continued to disrupt the programme in 2022, primarily:
		• The impact of the Covid-19 pandemic on the scheduling of work (due to self-isolation of either tenants or the workforce).
		 The limited availability of the materials and labour required to carry out the work, due to the post-pandemic bottleneck in the construction industry. Escalating costs, leading to difficulties in agreeing pricing schedules with contractors.
		A modification submitted to the EC to adjust the targets for the Department for Communities' activity (Energy Efficiency

ID	ID Priority axis Key information on the implementation of the priority axis with reference to key developments, significan steps taken to address these problems								
		in Social Housing) was approved in Feb 2022, to help ensure that the programme's objectives remain realistic.							
4	Technical Assistance	€9.2m (93.7% of the current allocation) has been committed. This funding has been utilised to meet administration, management, verification, communication, capacity building, expert advice and control cost requirements. Technical Assistance funding has also supported the development and maintenance of the programme website and of the programme database.							
		Notably, the support provided through Technical Assistance has helped to ensure that the programme was able to achieve its N+3 targets to date, as well as its 2018 performance reserve milestones. Technical Assistance funding was used to develop a dedicated programme website and this has continued to provide a platform through which to promote the programme. The website also serves as a single point of reference for various programme stakeholders.							
		The ongoing costs associated with running and maintaining the programme database continue to be funded through Technical Assistance. The database is used to support all the payment applications submitted to the EC.							
		There have been no significant issues encountered in the delivery of Priority Axis 4 during 2022. The focussed use of Technical Assistance throughout the year has enabled the programme to achieve its targets to date.							
		Note: The € 9.2m figure quoted at the start of this section is based on the December 2022 monthly exchange rate (1.15985).

SO1	BERD as a % of GVA	%	Transition	1.40	2012	1.80	1.70		NI Business Expenditure on Research and Development (BERD) figure as a percentage of GVA has increased from 1.5% in 2020 to 1.7%. in 2021. The methodology being used in NI has been updated however the figures being reported are in line with the original methodology so that a meaningful comparison can be made with the 2014 baseline figure. The GVA information from which the data is collated is produced a year in arrears, (The 2020 data was collected in 2021). The 2022 GVA position will not be available until later in the 2023 year, it has been delayed from the usual December release date. The output for 2022 therefore has been calculated using the 2021 GVA figure.

Priority axis	1 - Strengthening Research, Technical Development and Innovation
Investment	1b - Promoting business investment in R&I, developing links and synergies between enterprises, research and development centres and the higher education sector, in
Priority	particular promoting investment in product and service development, technology transfer, social innovation, eco-innovation, public service applications, demand
	stimulation, networking, clusters and open innovation through smart specialisation, and supporting technological and applied research, pilot lines, early product validation
	actions, advanced manufacturing capabilities and first production, in particular in key enabling technologies and diffusion of general purpose technologies, as well as
	fostering investment necessary for strengthening the crisis response capacities in health services
Specific	SO2 - To engage more NI businesses in Research and Development.

Whilst significant progress has been made since last year when only 149 properties had been completed, it is still much lower than where we had originally anticipated being at this stage of the Programme. The legacy of the Covid 19 pandemic and the availability of material and labour continues to have an impact on Programme activity. As per previous years, the 2022 journey time was established by taking an average of East and West glider journey times. The journey time has increased slightly from the 2021 year, however this is due to Covid 19 restrictions being lifted which saw the traffic volume returning to normal levels and a significant increase in passenger numbers.

4. SYNTHESIS OF THE EVALUATIONS

Synthesis of the findings of all evaluations of the programme that have become available during the previous financial year, with reference of name and reference period of the evaluation reports used

In order to meet the regulatory requirement laid down in article 114.2 (CPR) 'to submit to the Commission a report summarising the findings of evaluations carried out during the Investment for Growth and Jobs Programme for Northern Ireland programming period, by 31 December 2022.' A Summary template of evaluations completed to date in the programme was drafted by the Managing Authority and approved on 22nd November 2022.

Listed below are some of the most recently completed evaluations:

Priority 1

Grant for R&D SQW was appointed to complete the evaluation and the final report was completed in December 2021. This evaluation has been published on the IGJ website and is available to read in full on the link below:

https://www.investni.com/sites/default/files/2022-03/grant-for-r-and-d-interim-evaluation-december-2021.pdf

Design – The interim evaluation was completed with the final report issued in January 2021. The findings from this evaluation in terms of best practice in design-led innovation have been communicated to the relevant contacts leading the innovation agenda within the NI Government. It is available to read at:

https://www.investni.com/sites/default/files/2021-01/design_for_business_programme_interim_eval_jan2021.pdf

Priority 2

FEI Techstart: Evaluation of TechStart was completed May 2018. The most recent evaluation can be found here:

https://www.investni.com/sites/default/files/documents/static/library/invest-ni/documents/techstart-funds-evaluation-nispo-impact-assessment.pdf

FEI – Development Funds (Kernel & Crescent), Techstart, Co-Fund and Growth Loan Fund – Invest NI agreed the Thematic Approach to Programme Evaluations. This includes a Thematic Evaluation of all Debt (Growth Loan Fund) and Equity support (Techstart, Co-Fund and Development Funds).

The latest Evaluation of Invest NI Loan & Equity Solutions found the funds had made a significant contribution to supporting the SME sector within NI and should therefore be regarded as a success overall. The funds have provided finance to start-ups and SMEs over a period which has embraced times when conditions in the business finance market were particularly challenging. It stated that Invest NI alongside the Fund managers play an important role in stimulating demand and that the funds themselves have a role to play in encouraging businesses to adopt good practices linked to wider policy agenda, including diversity & net zero agendas. It was recommended that Invest NI should closely monitor the recovery in the investment rate for the Growth Loan Fund II. Another recommendation was that Invest NI should continue to work with the two development funds to ensure appropriate follow-on investment and successful exits.

The final report has now been completed by Hatch and is available on Invest NI website:

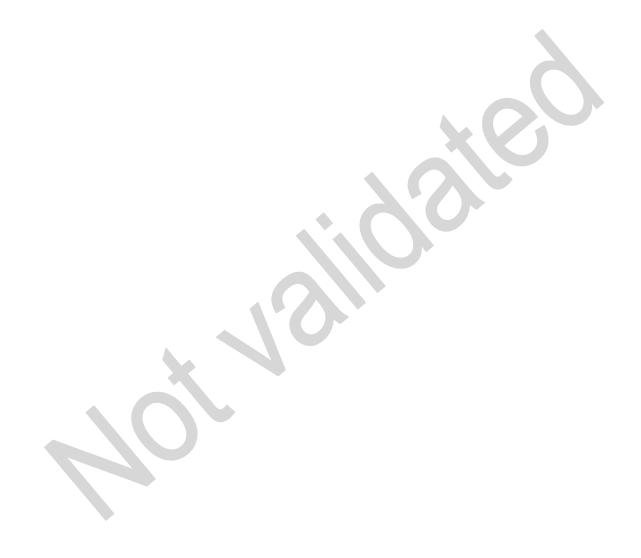

https://www.investni.com/sites/default/files/2022-06/access-to-finance-debt-and-equity-solutions-hatchevaluation-april-2022.pdf

Selective Financial Assistance (SFA): SQW were appointed to undertake the review which included the level of SME investment and delivery of the jobs promoted across projects, and also included the 'SME Capital Build' projects that have been designated under ERDF. The purpose of the evaluation was to provide an independent and robust assessment of the delivery and economic impact of SFA.

Overall, the evaluation evidence indicates that SFA has been highly effective in terms of the number and quality of jobs created in the private sector, and done so cost-effectively. It has also played an important role in strengthening NI's competitiveness in securing and embedding highly mobile investment, and encouraging indigenous businesses to be more ambitious and outward looking. The scale of the net GVA impact is also notable, with a positive RoI.

This evaluation was published by Invest NI in December 2021 and is available to read at:

6 ISSUES AFFECTING THE PERFORMANCE OF THE PROGRAMME AND MEASURES TAKEN (Article 50(2) of Regulation (EU) No 1303/2013)

(a) Issues which affect the performance of the programme and the measures taken

N/A			

(b) An assessment of whether progress made towards targets is sufficient to ensure their fulfilment, indicating any remedial actions taken or planned, where appropriate.

A modification was approved by the EC in January 2022 which adjusted the targets for the Department for Communities' activity (Energy Efficiency in Social Housing) under Priority Axis 3. This was needed primarily due to:

- The impact of the Covid-19 pandemic on the scheduling of work (due to self-isolation of either tenants or the workforce).
- The limited availability of the materials and labour required to carry out the work, due to the post-pandemic bottleneck in the construction industry.
- Escalating costs, leading to difficulties in agreeing pricing schedules with contractors.

In addition, this modification transferred some funding (c €7m ERDF) from Priority Axis 2 to Priority Axis 1, to ensure that the programme's objectives continue to be met as effectively and efficiently as possible, and that the impact of the programme allocation is maximised.

Priority 1

This Priority is on track to deliver.

Priority 2

MA consider that sufficient progress is being made to ensure fulfilment of targets

Priority 3

For the Energy Efficiency in Social Housing Project which has been assigned to Department for Communities (DfC). Up until 31st December 2022, work has been completed on 834 properties whilst significant progress had been made since last year when only 149 properties were completed it is still much lower than had been anticipated at this stage. As detailed above the programme continues to be disrupted however the modification has helped to address this by amending the targets.

DfC/NIHE continue to measure and monitor contract performance to mitigate any potential further delays, and expedite the programme of work where possible to proceed towards achievement of the overall Programme (2023) target.

Priority 4

No need for remedial action, implementation going to plan.

The NI ERDF Programme was developed on the basis of NI needs and development priorities as evidenced through NI strategies, Country Specific Recommendations and the Commission's 2012 Position Paper. With numerous competing and pressing priorities for ERDF funding directly related to the aims of TOs 1, 3 and 4, it was acknowledged that implementation of Atlantic Strategy actions would not be directly targeted. However, the nature of research and innovation activity planned meant that there could be projects supported that contribute to blue growth.
